The Highland Council has been working with a range of partners to build an offer of free summer experiences for children and young people as part of our Summer of Hope. Some activities will be available to all families across the authority while others may only be available to priority families – those in receipt of Free School Meals, children with disabilities or Additional Special Needs, care experienced children and young people or young carers.

Supported by Scottish Government funding, we want to help our children, young people and families to get back out and confidently socialise and re-connect after a challenging year around COVID-19.

Keep your eyes peeled and Hopeful for details for how to sign up which we will continue to share over the coming weeks.

The Highlands has so much on offer which is free and fun just by going outside and playing!

If you are a partner who has a venue, indoor or outdoor, that you can access for fun activities please get in touch with miriam.macdonald@highland.gov.uk to see whether we can partner with you too!
